

F100V

As one of the most popular, and effective forms of water treatment, activated carbon serves to treat a wide range of water issues.

With the ability to easily dechlorinate the water as well as neutralize objectionable tastes and odors, the Model F100 Whole-house Filter is a remarkable value. Using proven electronic valve controls, this hands-free system offers years of maintenance free operation.

Exclusive ceramic core valve
by Aerus Origins™

Features

- Fully ported electronic valve affords hands-free automatic operation
- Accommodates any type of plumbing
- Coconut shell activated carbon media eliminates both sediment and taste issues
- Contains 1 cu.ft. of media

Benefits

- Chlorine free, “polished” water from every faucet in your home
- Eliminates particulate such as sand, rust, and other sediment
- Reduction of objectionable smells from odor causing organics
- Better tasting water, coffee, tea, and other beverages made from tap water
- Automated backwash controls purge accumulated sediment from the filter bed

Specifications

- Electronic control valve with plumbing bypass included
- Control valve with robust ceramic core construction
- Coconut shell activated carbon in an FRP media tank
- Operating pressure up to 125 psi
- Operating temperature range of 34°F to 110°F
- In/Out plumbing up to 1” pipe size
